<p>a. Explore a variety of stimuli for sourcing movement to develop an improvisational or choreographed dance study. Analyze the process and the relationship between the stimuli and the movement.</p> <p>b. Experiment with the elements of dance to explore personal movement preferences and strengths, and select movements that challenge skills and build on strengths in an original dance study or dance.</p>	<p>a. Synthesize content generated from stimulus materials to choreograph dance studies or dances using original or codified movement.</p> <p>b. Apply personal movement preferences and strengths with the movement vocabulary of several dance styles or genres to choreograph an original dance study or dance that communicates an artistic intent. Compare personal choices to those made by well-known choreographers.</p>	<p>a. Synthesize content generated from stimulus material. Experiment and take risks to discover a personal voice to communicate artistic intent.</p> <p>b. Expand personal movement preferences and strengths to discover unexpected solutions that communicate the artistic intent of an original dance. Analyze the unexpected solutions and explain why they were effective in expanding artistic intent.</p>
